Weekly Summary Report

Weekly Code Enforcement Efforts

Narrative / Comments

Code Enforcement in conjunction with Public Works continues to check the entire Village for areas of standing water in regards to Zika virus prevention efforts. They continue to visit all construction sites at least twice weekly, maintaining contact with the contractors to immediately address areas of concern. All construction sites were found to be in compliance this week.

The contractors conducting a permitted remodel of Carpaccio's restaurant were found to have been working after hours without the required approval. A code violation was issued and they were referred to the Building Department. A code warning was issued to Prada for a debris control violation regarding the improper use of a dumpster.

A total of six code warnings were issued within the Gated Community. All of these warnings were for appearance code violations. Additionally, a re-inspection of a residence where graffiti had been located last week, revealed the area had been repainted.

The code officer issued two violations after discovering two separate units conducting remodeling work without a permit. The units in question are both located within the Balmoral property. The unit owners were referred to the Building Department in order to obtain the required permits.

The Bal Harbour Tower Condominium along with the Palace property were both issued code violations for failing to repair their beach equipment boxes after having been previously warned.
