Bal Harbour Village Utility Replacement Project – Phase I

Beginning Monday, May 23, 2016, the contractor for the Bal Harbour Utility Replacement Project will begin removing and relocating landscaping in preparation for the upcoming reconstruction. This work will last approximately one week.

What to Expect:

- Removing and relocating Royal Palms along Harbour Way between Bal Bay Drive and Park Avenue within the project limits. Once construction is completed, the Royal Palms will be installed in its original location
- The irrigation system along Harbour Way between Bal Bay Drive and Park Avenue will be turned off during construction
- A designated area for tree protection will be provided
- Travel lanes and driveway access will remain open during this work

Work Schedule:

Hours of operation are from 8:30 a.m. to 5:30 p.m., on weekdays and subject to approval on weekends.

Project Overview:

This work is part of the Bal Harbour Village Phase I Utility Improvement project along Harbour Way from Collins Avenue to Bal Bay Drive. Work includes replacing the sewer lines within the residential section of the Village to enhance service.

Start: May 2016

Completion: November 2016

This schedule is subject to change due to weather, special events, or unforeseen circumstances.
