Bal Harbour Village Utility Replacement Project – Phase I

Construction Advisory: July 8, 2016

On-Going Work:

The contractor for the Bal Harbour Utility Replacement Project will continue the preparation work for the pump station installation within the sodded area located at Bal Bay Drive and Harbour Way. While this work is underway, all travel lanes will remain open.

Upcoming Work:

The contractor will also be potholing the roadway at various locations at Harbour Way and Bal Bay Drive in order to search for underground utilities. Dust and noise will occur and the contractor will continue to water and sweep the area every work day, as needed.

This schedule is subject to change due to weather, special events, or unforeseen circumstances.

What to Expect:

- Pedestrian walkways and access to driveways will be maintained at all times
- Daily restoration will occur
- Access to emergency vehicles will be maintained at all times
- Heavy machinery and crews in and around work zone
- Dust and noise. The contractor is required to water and sweep the area daily

Work Schedule:

Hours of operation are from 8:30 a.m. to 5:00 p.m., on weekdays and subject to approval on weekends.
